COMMENTS:

I support the department's decision to use the Caliente Corridor as the route to Yucca Mountain. I believe this is a great economic opportunity for our area.

It is important to me to know where the rail alignment will fall; I would like to see it fall along the old railroad line to Pioche. This route seems logical from a construction standpoint. I believe it will be easier to acquire land along this route.

We can best benefit from this opportunity if we are prepared. I would like to see medical + emergency services improvements. In addition, the intermodal location and other facilities that apply must be placed in Caliente.

Please note: Your comment(s) must be received by the Department of Energy by June 1, 2004 to be considered. Comments received after the close of the comment period will be considered to the extent practicable.

If you prefer to mail your comments, you may use the back side of this sheet as a postage-paid, self-mailer. To do so, fold in thirds along the dotted line so the address and postage-paid notice are visible, then secure with tape.
